

The Little Angel Fund, Inc.

ABOUT Little Angel :

The Little Angel Fund, Inc. is a non-profit, tax exempt organization, established in March of 1984 by Jenny and Joseph Tranfaglia in memory of their daughter, Amanda Rose. Amanda was born 16 weeks premature and after a 33 day struggle for life, unfortunately she died. Our efforts to offer information, increase awareness, educate, comfort, and listen, have not been in vain. For if we help only one family, then our mission has been accomplished.

A longtime partner and grass roots support system for the NICU at Stony Brook University Medical Center, Little Angle Fund consists of a group of parents helping parents of premature infants through a difficult time in their lives. Its purpose is to make life a little easier and more comfortable for the premature and seriously ill infants and their families, while they are in a Neonatal Intensive Care Unit, after they graduate from the NICU and to act as a source of help and support for the bereaved. For more information on upcoming events, or to make a donation call 631-736-2512. To learn more about The Little Angel Fund please visit their website at: <http://www.littleangelfund.org/>.

Little Angel Services

- Maintain an up-to-date file containing printed material on various subjects dealing with prematurity, subsequent high risk pregnancy, grief and bereavement.
- Provide a support network of volunteers to operate a telephone referral/information program.
- Offer matched Parent to Parent Listeners for parents who wish to talk to someone with similar experiences.
- Publish a Newsletter twice a year to serve as a vehicle for parents and families to share their feelings and experiences.
- Organize and sponsor fund raisers to raise money for local area Neonatal Intensive Care Units, especially at the University Hospital and Medical Center in Stony Brook, NY.
- Offer High Risk and Bereavement Packets.
- Participate and sponsor conferences, workshops and lectures in order to obtain information.
- A Welcome Gift Packet is given to every baby admitted into the NICU at Stony Brook University Hospital.
- A Discharge Gift Diploma is presented to every baby discharged from the NICU at Stony Brook University Hospital.
- On discharge, at the discretion of the unit social worker, families in need will be given layette sets

Please help and be a proud sponsor to a worthy cause. Thank you.
